

IT people for IT people

Dear colleagues,

My name is Branko Ćorilić and I work for the company called Zugseil in Novi Sad as a senior developer, and I am quite proud of being a part of the Serbian IT community.

I am addressing you with my plea for assistance concerning the accident that my sister, Bojana Ćorilić (21) experienced. Bojana is a second-year student of Software Engineering at the Technical Sciences Faculty in Novi Sad. Namely, Bojana has suffered serious body injuries from Kalashnikov bullets during this year's massacre in Žitište causing doctors to amputate her left leg in order to save her life. Moreover, the accident also caused her right arm to be injured which further complicates her recovery. Despite the poor prognosis of doctors, Bojana's strong spirit helped her survive, but now she heavily fights for recovery, since her life greatly depends on someone else's care and assistance.

However, despite the delicate condition Bojana is in, she does not give up and exhaustingly exercises with a lot of enthusiasm. But her further recovery depends solely on obtaining the prosthesis that would allow her to stand again on her feet and continue with a "normal" life and studies.

Before the accident, my sister was dancing actively, travelled and lived her life like her peers, while today she spends most of her time on rehabilitation.

We are, as a family, trying to provide her with our maximal love and support, and bear all of the treatment costs ourselves. Considering the fact that the amount of money is large, 60 - 80 thousands euros, we are, unfortunately, incapable of bearing the costs of the prosthesis ourselves.

That is why I ask you to join our family, friends, colleagues and all the kind people who have already helped us and contribute so that we could give Bojana a chance to get back on her feet, finish her education and eventually becomes a part of our IT community.

The money can be paid to our account which was specifically opened for that purpose in the Intesa bank on behalf of our mother.

Thanks in advance,
Branko Ćorilić
